Form ASR Instructions

General Instructions

You must report all alcohol sales made on Tribal land, including sales made to business that are not owned by the Tribe.

Form ASR is due by the 18th day of each month, even if you have no sales to report in any given month.

Wine and Distilled Spirits

Wine and distilled spirits must be reported in liters.

Bottles

Include on this line all wine and distilled spirits that are 200 ml or greater in size.

Beer

Note: 3.2% beer is measured by weight, not by volume.

The Minnesota tax rate for beer is based on the 31-gallon barrel and the alcohol content of beer. You must convert all measurement of kegs and cases into barrels or percentages of a barrel.

To convert kegs and cases into barrels, divide the total ounces of beer in the kegs or cases by 3,968 (the number of ounces in a barrel).

1 barrel = 31 gallons

1 gallon = 128 fluid ounces

1 liter = 0.264172 gallons

The conversion table to the right is for the most commonly used sizes of kegs and cases. Multiply the number you have of each size by the decimal shown.

Conversion Table

If you have:	Multiply the quantity you have by:
50 ltr bbl	.42608
30 ltr bbl	.25565
6/64 oz. case	.09677
