2014 Schedule M1CD Instructions

Who is Eligible?

If you paid someone to care for your child or other qualifying person so that you (and your spouse, if filing a joint return) could work or look for work, you may be eligible for a credit based on your qualified expenses. You must have had earned income to take this credit.

Qualified expenses and qualifying person are the same as for the federal credit for child and dependent care expenses. Exceptions: See *If Your Child was Born in 2014* (on this page) and *Operators of Licensed Family Day Care Homes* (on the next page).

To qualify for the credit, all of the following statements must be true:

- your household income is \$39,000 or less (complete lines 1 through 6 of Schedule M1CD to determine household income);
- you are single, head of household, qualifying widow(er) or married filing a joint return (married persons filing separate returns do not qualify); and
- the qualifying person lived with you for more than one-half of the year.

The Minnesota credit is refundable, which means you may benefit from the credit even if you have no state tax liability. This is different from the federal credit which can be used only to offset tax.

Before you complete this schedule, you must complete federal Form 2441—even if you did not claim the federal credit or file a federal return.

Nonresidents and part-year residents may be eligible for this credit, which is prorated by the percentage of earned income taxable to Minnesota.

Penalty for Fraudulently Claiming a Refund

If you file a return that fraudulently claims a credit, you will be assessed a penalty equal to 50 percent of the fraudulently claimed credit.

You Must Have Proof

Save canceled checks and/or keep a detailed record of your payments for child and dependent care expenses. The department may ask you to show such records if there is any question concerning your Child and Dependent Care Credit.

Qualifying Person

A qualifying person is the same as for the federal credit for child and dependent care expenses. A qualifying person is your

dependent child younger than age 13, your disabled spouse or a dependent who is disabled.

If you were divorced, legally separated or lived apart from your spouse during the last six months of 2014 and your child is not your dependent, you may take the credit if your child meets the requirements of a qualifying person for the federal credit for child and dependent care expenses. In this case, the other parent cannot treat the child as a qualifying person.

Qualified Expenses

Qualified expenses are amounts paid for household services and care of the qualifying person while you (and your spouse, if filing a joint return) worked or looked for work. The person who provided the care could not be your spouse or a person you can claim as a dependent. If your child provided the care, he or she must have been age 19 or older. The expenses are the same as those that qualify for the federal credit for child and dependent care expenses. Payments made for you by another person or agency do not qualify.

Exceptions:

Even if you did not have actual child care expenses, you may still be eligible if you meet one of the following conditions:

- you are married and filing a joint return, your child was born in 2014, and you did

not participate in a pre-tax dependent care assistance program; or

- you were an operator of a licensed family day care home caring for your own child who had not reached the age of six years at the end of the year.

If Your Child was Born in 2014

If you are a married couple who had a child born in 2014, you may be eligible to calculate your credit using \$3,000 of expenses for that child even if you did not have actual child care expenses or if only one spouse had earned income.

If your actual child care expenses for the newborn child and the lesser earning spouse's income was \$3,000 or more (\$6,000 if you have two or more qualifying children), do not complete the worksheet.

Complete the worksheet below to determine your credit. If you meet all of the following requirements:

- You are married and filing a joint return;
- You had a child (or children) born in 2014;
- You had less than \$3,000 in child care expenses OR either you or your spouse earned less than \$3,000; and
- Neither you nor your spouse participated in a pre-tax dependent care assistance program.

Worksheet for Child Born in 2014

If you completed federal Form 2441 to claim the federal credit, you must also complete a separate federal Form 2441 to determine your Minnesota credit. If you did not claim the federal credit or file a federal return, complete a federal Form 2441 to determine your Minnesota credit. Follow the instructions below to complete the Form 2441 you will use for Minnesota purposes.

1	Enter the amount from line 4 of Form 2441	1	_____
2	Enter the amount from line 5 of Form 2441	2	_____
3	Add steps 1 and 2	3	_____
4	Determine the amount to enter on line 6 of Form 2441 as follows:		
	a. For the child born in 2014, enter the smaller of:		
	1) \$3,000 or \$6,000 for two children born in 2014; or		
	2) the amount from step 3	4a	_____
	b. If you had another child (or children) born before January 1, 2014; enter the smallest of:		
	1) your actual qualified child care expenses paid for them;		
	2) amount on step 1; or		
	3) amount on step 2.	4b	_____
	c. Enter the smaller of:		
	1) the total of steps 4a and 4b above; or		
	2) \$6,000	4c	_____

Enter the amount from 4c on line 6 of Form 2441. Complete the rest of Form 2441 and Minnesota Schedule M1CD to determine your Minnesota credit. Place an X in the appropriate box above line 1 of Schedule M1CD.

Operators of Licensed Family Day Care Homes

Operators of licensed family day care homes can claim a child care credit when they care for their own child if the child had not reached the age of six years at the end of 2014. If the child was 16 months or younger at the end of 2014, the credit is based on \$3,000 of qualified expenses (\$6,000 if there are two children age 16 months or younger). If, at the end of the year, a child was older than 16 months but younger than age six, the credit is based on the amount the provider would charge for a child of the same age being cared for in the home for the same number of hours (up to the maximum amounts).

To correctly determine your credit, you must complete a separate federal Form 2441 using the above qualified expense amounts instead of any expenses you actually paid. Include the recomputed Form 2441 you used to determine your Minnesota credit when you file Form M1.

Place an X in the appropriate box above line 1 and enter your day care license number in the space provided.
