2016 Schedule M2MT Instructions

Who Must File Schedule M2MT

If you were required to complete federal Schedule I, *Alternative Minimum Tax*, or if the income shown on line 5, column A of this schedule is more than \$36,840, you must complete Schedule M2MT and include it when you file your Minnesota Form M2, *Income Tax Return for Estates and Trusts*.

Line Instructions

Round amounts to the nearest whole dollar.

For lines 1 through 5, column A, enter the total amounts that are apportioned to the fiduciary. Under column B, enter the income amounts that are from Minnesota sources.

Line 1

Under column A, enter the amount from line 29 of federal Schedule I. Under column B, enter the amount assignable to Minnesota.

Line 2

Direct expenses should be allocated to the income to which it is associated. Indirect expenses should be allocated to each class of income in the proportion that each class of income bears to the total income. Only those expenses that relate to the non-Minnesota income should be added back on line 2 of Form M2MT.

Deductions not allowed by Minnesota.

Interest and other expenses deducted on your federal return which relate to income or gains from non-Minnesota sources must be added to your taxable income.

Include administration fees and expenses, interest, taxes, depletion and other deductions (including the charitable deduction) that are connected with or allowed against income or gains not taxed by Minnesota. An example of this would be expenses incurred in connection with a probate proceeding in another state. [M.S. 290.17, subd. 1(b)].

Losses not allowed by Minnesota. Include your total losses from non-Minnesota sources to the extent the losses are deducted in determining your federal taxable income or loss.

Common examples of losses to include on line 2 are:

- losses deducted on the sale or other disposition of real or tangible property outside Minnesota,

- casualty losses deducted on property outside Minnesota,
- losses deducted on the operation of a farm outside Minnesota,
- out-of-state losses from partnerships, S corporations and other fiduciaries,
- losses deducted on the operation of a trade or business from sources outside Minnesota, and
- losses deducted on the sale or other disposition of stocks, bonds, securities and other intangible property by nonresident estates and trusts.

Line 3

Of the total amount of additions allocated to the fiduciary (line 4 of Form M2), determine the portion that is from lines 25, 28, 29, 32, and 33 of Form M2.

Subtract any private activity bond interest shown as a tax preference item on federal Schedule I, but only to the extent the interest was from non-Minnesota source bonds.

Enter the result of these additions under column A. Enter the amount assignable to Minnesota in column B.

Line 5

Of the total amount of subtractions allocated to the fiduciary (line 6 of Form M2), determine the portion that is from lines 35-41 of Form M2.
