

Working Family Credit... get credit for working!

Last year's average
refund was \$787!

What is the Working Family Credit?

It is a refundable credit for working individuals whose income is below a certain level.

On your 2018 income tax return, your income must be less than the following:

Number of Qualifying Children	Married Filing Joint	Any Other Filing Status
0	\$21,000	\$15,300
1	\$46,000	\$40,300
2 or more	\$51,500	\$45,800

How can the Working Family Credit benefit me?

The Working Family Credit can reduce your tax and may result in a refund even if you do not owe tax.
