### Department's e-Services system adds new features

**ST. PAUL, Minn.** — e-Services users now have the benefit of new features when using the Minnesota Department of Revenue's online system.

There's an improved sign-up page and balances now appear in green and red so users can easily see if they owe money or have a credit on their business account(s).

"Better navigation and more options in e-Services make it faster and easier for our business taxpayers to file, pay and review their Minnesota tax returns," said Terri Steenblock, Assistant Commissioner for Individual Taxes. "These changes let them conduct their business with us more efficiently. That's good for them and for the department."

The new features include:

- Improved sign-up page
- Color coding on balances in green and red so users can easily see if they owe or have a credit
- Homeowners applying for a property tax refund can come back later to view or print their form.
- People who request a payment plan online will find clearer instructions, and they can view or print their request after they submit it.
- Businesses can more easily add or update their sales and use tax locations.

To see the improvements, log in to your account from the e-Services [home page](#).
