

The Minnesota Department of Revenue announced it is again accepting tax returns submitted using TurboTax as of 3 p.m. on Saturday, Feb. 7.

We took this step after Intuit implemented new “targeted security measures.” We will continue reviewing returns and will remain in contact with the company.

If you already filed your return using TurboTax, you do not need to do anything. We will review your return and contact you if we identify issues.

Electronic filing is still the best way to file your taxes. You can find a list of [approved tax software companies on our website](#).

Protecting private taxpayer information and avoiding fraudulent activity is our priority.
