Preliminary Property Tax Levies for 2017

ST PAUL, Minn. – The Minnesota Department of Revenue annually releases a list of the preliminary maximum property tax levies that have been reported by local governments and have been passed by local school referenda on November 8, 2016.

The preliminary amounts are used by counties to compute parcel-specific property tax estimates for 2017, which are mailed to property owners in November in the form of Truth-in-Taxation notices. Truth-in-Taxation notices also list Truth-in-Taxation meeting times and locations for residents. These meetings, which take place between late November and late December, are an opportunity for Minnesotans to provide input to local leaders on their levies and on how they are proposing to spend tax dollars. These meetings are required for cities with populations over 500, counties, school districts, regional library authorities, and metropolitan taxing districts.

After input from citizens, local governments must set their final 2017 property tax levies by December 28, 2016. The final levies can be set lower, but not higher, than preliminary levies. The department will release final property tax levy information in February.

For 2017, preliminary property taxes statewide will increase \$344.3 million, a 3.8% increase. Last year, preliminary statewide property taxes increases totaled \$433.1 million, a 5.0% increase, and last year's final levy increase was 4.5% (\$397 million).

Cities - The 2017 preliminary property tax levies for cities will total approximately \$2.261 billion compared with \$2.129 billion in 2016, a 6.2% increase.

Counties - The 2017 preliminary property tax levies for counties will total approximately \$3.03 billion compared with \$2.906 billion in 2016, a 4.2% increase.

Townships - The 2017 preliminary property tax levies for townships will total approximately \$248 million compared with \$243 million in 2016, a 2% increase.

Schools - The 2017 preliminary property tax levies for schools will total approximately \$2.716 billion compared with \$2.643 billion in 2016, a 2.8% increase.

Special Taxing Districts - The 2017 preliminary property tax levies for special taxing districts will total approximately \$364 million compared with \$352 million in 2016, a 3.6% increase.
