

Limited Market Value Report

**2001 Assessment Year
Taxes Payable 2002**

**Minnesota Department of Revenue
Tax Research Division**

February 1, 2002

Mandate Information

This report on limited market value is mandated by Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42.

In response to Minnesota Statutes, Section 3.197, the total cost of this report is \$2,500.

MINNESOTA • REVENUE

February 1, 2002

To the members of the Legislature of the State of Minnesota:

I am pleased to transmit to you the Limited Market Value Report for taxes payable 2002, undertaken by the Department of Revenue in response to Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42 regarding the market value exclusion under Minnesota Statutes, Section 273.11, Subdivision 1a.

The report provides summary and municipal tables on the market value limitation exclusion for farm, residential and seasonal recreational residential property. The market value exclusion for this limitation for taxes payable 2002 sums to \$20,961,007,763 at the statewide level, or 7.2 percent of the total taxable market value of the limited classes of property.

Sincerely,

Matthew G. Smith
Commissioner

Executive Summary

This report presents information on the limited market value of farm, residential and seasonal recreational residential property for assessment year 2001, taxes payable 2002, as mandated by Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42.

- The total market value limitation for taxes payable 2002 is \$20,961,007,763. This compares to \$10,573,691,372 in taxes payable 2001, \$5,621,821,611 in taxes payable 2000, \$3,389,506,961 in taxes payable 1999, \$2,529,034,086 in taxes payable 1998, \$2,045,660,418 in taxes payable 1997, \$1,615,639,650 in taxes payable 1996, and \$1,047,762,545 in payable 1995.
- The payable 2002 limitation is 7.2 percent of total statewide market value.
- For taxes payable in 2002, 75% of all residential homesteads are subject to market value limitations.

Market Value Limitation, Pay 1995 - 2002

Introduction

In 1993, the legislature established a limitation on annual increases in the market values of farm, residential, and seasonal recreational residential property, effective for taxes payable 1994. The 1993 legislation authorized the limitation to the 1998 assessment year, but in 1994 the legislature set the 1997 assessment year (taxes payable 1998) as the final year. The 1997 legislature extended the limitation to assessment year 2001. The 1997 legislature also changed the one-third factor to one-fourth in the alternative method of calculating the limitation. The 1999 legislature changed the 10% limit to 8.5%, and lowered the one-fourth factor to 15%. The 2001 legislature introduced a phase-out plan. The 8.5% limit will rise to 10% in assessment year 2002, 12 % in assessment year 2003, and 15% in assessment years 2004 to 2006. The 15% difference factor will rise to 20% in assessment year 2003, 25% in assessment year 2004, 33% in assessment year 2005, and to 50% in assessment year 2006. For assessment year 2007, all property will be at full estimated market value.

In response to the mandate in Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42 this is the ninth annual report on the total value excluded from taxation by the limitation law for each property type in each city or township.

This report provides in Appendix A the mandated table for taxes payable in 2002 of excluded value by property type for each city or township. The report also summarizes the effects of the limit at the statewide and regional levels, including the change in percentage distribution of the market values of all property types subject to the limit. Cities or townships with the largest percentage reductions under the limit are shown in rank order.

The sources of information for the summary are the 2001 fall mini-abstract of assessment and the 2001 final abstract of assessment (reporting taxable market values after the limitation reduction and other property value exclusions). Each county assessor submitted these abstracts to the Department of Revenue. The limitation amounts by type of property were obtained from data listed on the mini-abstract.

How Does the Limit Actually Work?

The limitation provision in Section 273.11, Subd. 1a excludes from taxation any annual increase in the market value of favored property that exceeds the larger of 8.5 percent of the prior year's taxable market value or 15% of the difference between the current estimated market value and the prior year's taxable market value. The term "taxable market value" for pay 2002 means the estimated full market value after reductions for the "green acres" exclusion in Section 273.111, the exclusion of value for improvements to homes under the "This Old House" legislation in Section 273.11, Subd. 16, the exclusion of value for the "open space" law in section 273.112, and the limited market value exclusion. The "estimated market value" for pay 2002 is the value prior to these reductions, but excludes the value of new improvements. As Figure 1 shows, the "maximum market value" is first determined by increasing the previous year's taxable market value by 8.5 percent or by taking 15% of the increase in value. The "limited market value" then is the greater of the two maximum market values. For cases where the market value increases

	<u>Examples</u>		
	A	B	C
Estimated Market Value Comparison			
1) 2001 Taxes Payable Market Value	\$100,000	\$100,000	\$100,000
2) 2002 Taxes Payable Estimated Market Value *	\$105,000	\$112,000	\$175,000
3) Market Value Increase (2-1)	\$5,000	\$12,000	\$75,000
Percentage Increase	5.0%	12.0%	75.0%
Maximum Market Value Determination			
4) 108.5% of 2001 Taxes Payable Market Value (1 x 108.5%)	\$108,500	\$108,500	\$108,500
5) 2001 Taxes Payable Market Value Plus 15% of Estimated Market Value Increase [(1 + (3 x 15%))]	\$100,750	\$101,800	\$111,250
6) 2002 Taxes Payable Maximum Market Value (Greater of 4 or 5)	\$108,500	\$108,500	\$111,250
Limited Market Value Determination			
7) 2002 Taxes Payable Limited Market Value (Lesser of 2 or 6)	\$105,000	\$108,500	\$111,250
Percentage Increase	5.0%	8.5%	11.3%

Example A: Limitation does not apply.

Example B: 8.5 percent limitation applies.

Example C: 15 percent limitation applies.

* Excluding the value of new improvements for pay 2002.

between 8.5 and 57 percent, the “8.5 percent” maximum is greater, as in example B. When increases exceed 57 percent, the “15% of the increase” maximum is larger, as in example C.

The limit applies to farm, residential and seasonal recreational residential (non-commercial) properties for assessment years 1993 to 2006 (taxes payable 1994 to 2007). Timberland is included in farm non-homestead. All rental housing with three or fewer units is included. This includes a small amount of low income housing which is usually listed in the abstracts as apartment property. New ownership of a previously limited parcel does not change the market value limitation. New improvements, whether to land or structures, are excluded from the limit calculation in the year in which the new improvements become taxable, but thereafter become part of the estimated market value used in determining the market value limitation in subsequent years. Limitation does not continue to apply when a property class changes from a favored class to a non-favored class.¹ Also note that the exclusions in law for platted vacant land, green acres and “This Old House” take precedence over the limited market value law and are calculated without taking into account the limitation reduction.²

Statewide and Regional Limitation Amounts by Property Class

The total limitation reduction statewide for taxes payable 2002 is \$20,961,007,763. As Table 1 shows, the percentage reduction in the value of favored classes at statewide and regional levels is increasingly significant. In percentage terms, the limit reduced the value of seasonal recreational residential property most (19.33 percent statewide) and farm homestead property (excluding apartments) least (7.41 percent statewide). Regionally, the limit reduced the market value of favored classes less in Greater Minnesota (7.33 percent) than in the metro area (8.6 percent).

Most of the limitation in dollar terms occurs in the metro region, and the limit affects residential homestead property more than other property classes. Market values in the metro region were cut by over \$12.6 billion (60.3 percent of the statewide reduction). The reduction to residential homestead property statewide was almost \$14.3 billion, and approximately \$3.4 billion of this reduction is in the Greater Minnesota region.

Table 2 provides a percentage distribution of the total limitation by region and property type. Looking at shares of the total limitation reduction in each major region, residential homestead reductions predominate. Residential homestead reductions account for 86.2 percent of the total reductions in the metro area and 40.6 percent in the Greater Minnesota region.

Statewide Changes in Distribution of Market Values Among Property Classes

As Table 3 shows, the statewide distribution of taxable market value changed for taxes payable in 2002 to favor most limited classes of property, but in percentage terms the changes are relatively small. The limit reduced the shares of total market value most for residential homestead property, from 58.94 percent to 58.28 percent of total market value. The shares for

farm, seasonal recreational, and residential non-homestead property also declined, while shares for apartment, commercial, industrial and public utility property increased.

Changes from Pay 2001 to 2002

As noted above, the total limitation reduction increased statewide from \$10.573 billion for taxes payable 2001 to \$20.961 billion for payable 2002, an annual growth of \$10.387 billion or 98 percent. As Table 4 shows, the percentage increase in the exclusion was more rapid in the metro area. The metro area exclusion increased by 140.1 percent, compared to a 56.8 percent increase in Greater Minnesota. In dollar terms, the exclusion increased by \$3.012 billion in Greater Minnesota, and by \$7.374 billion in the metro area.

Statewide and Regional Changes in Distribution of Net Tax Amounts Among Property Classes

As Table 5 shows, the statewide distribution of net tax changed for taxes payable in 2002, reducing the tax burden for the limited classes of property. The non-limitation simulation holds the state levy constant, allows the market value credits to rise, and allows TIF levies to decrease with the lower tax rates in areas with commercial property. In percentage terms the largest reduction in total tax burden occurred in noncommercial seasonal recreational residential property, an 11.44 percent decrease statewide.

In terms of net tax dollar amounts the tax burden shift is most evident in the statewide reduction in the residential property tax burden by \$40.7 million, and the increase in the commercial/industrial property tax burden by \$60.8 million. This increase in net tax on commercial/industrial property raises policy issues since Minnesota already has some of the highest commercial/industrial taxes in the nation.

In Greater Minnesota, the largest reduction in net tax in both percentage terms (11.4%) and in dollar terms (\$14.4 million) is in noncommercial seasonal recreational residential property. This contrasts to the metro area where the largest percentage decrease is 31.6% for farm non-homestead property. In dollar amounts, metro residential homesteads benefit from a reduction of \$41.7 million.

Pay 2002 Limitation Reductions at the City and Township Level

The greatest degree of market value limitation at the city and township level occurred in sparsely populated areas of the state. Table 6 ranks cities and townships by the percentage of market value limitation for favored classes. As the table shows, the greatest degree of limitation occurred in northern and north central Minnesota, although a few southern cities and towns also rank highly. Appendix Tables A-1 and A-2 provide a detailed breakdown in county order of the limitation reductions for each favored class in each city and township in the state.
