Effective beginning with aids payable in 2003.

EXPLANATION OF THE BILL

Current Law: M.S. 477A.011 subdivision 36, defines “city aid base” for purposes of computing local government aid. Under M.S. 477A.013, subdivision 8, a city formula aid is established, and under subdivision 9, the amount of local government aid distributed to cities is determined to be the sum of the city aid base and the city formula aid, subject to certain maximums. M.S. 477A.03 sets the appropriation for local government aid.

Proposed Law: The proposal increases the city aid base for calendar year 2003, and thereafter and sets the maximum amount of total aid the city may receive under section 477A.013, subdivision 9, paragraph (b) or (c) to also be increased for the calendar year 2003 only. The amount of the increase the city will receive is an amount to the following formula:

The total 2000 population of the city minus 5,000 times 60 .

If the following criteria apply:

1. have a 2000 census population greater than 8,000;
2. the city did not receive an aid increase in 2002 under paragraph (o);
3. the city is only contiguous to townships;
4. the total population of the contiguous townships is greater than the population of the city determined by the 2000 census;

REVENUE ANALYSIS DETAIL

- Alexandria appears to be the only qualifying city for the increased city aid base.
- Because the total amount of city formula aid is adjusted to equal the difference between the appropriation amount and the city aid base, the increase in the aid base for this city yields an equivalent decrease in total formula aid, and has no impact on the general fund.

Number of Taxpayers Affected: Alexandria taxpayers would benefit from additional LGA, while all taxpayers in other cities receiving LGA would be affected by slight offsets to their aid.

ADMINISTRATIVE/OPERATIONAL IMPACT

There will be no significant administrative or operational costs or savings to DOR in administration of this bill.
