Minnesota Sales and Use Tax 1998 Annual Report

The Minnesota Sales and Use Tax Minnesota Statutes, Chapter 297A

Introduction

Minnesota's sales and use tax was enacted in 1967. The sales tax is imposed on the gross receipts of all persons who sell, rent, or lease tangible personal property (goods) at retail or provide taxable services. Generally, a sale is "at retail" unless the buyer acquires goods for the purpose of resale (for example, sales by a manufacturer to a distributor), or uses the items as raw material to manufacture a new product for ultimate sale at retail. Sales by manufacturers and distributors to persons not engaged in the business of reselling the products are considered taxable retail sales.

In addition to sales of tangible personal property, the sales tax is imposed on selected services. Some examples of taxable services are: the sale of prepared meals, the sale of electricity and other utility services, lodging at hotels, motels and resorts; building cleaning and maintenance, lawn care, car washing, car parking, laundry and dry cleaning, security services, and pet grooming.

Use Tax

Like other states with a sales tax, Minnesota also levies a complementary use tax. The use tax is imposed on the storage, use, or consumption in Minnesota of taxable goods and services purchased from any vendor unless Minnesota sales tax was paid on the purchase. The use tax primarily covers sales to in-state customers by out-of-state vendors who are not required to collect the Minnesota sales tax. The use tax is also imposed on goods purchased by parties who originally acquired the products for resale or other exempt purpose. For instance, removal of an item from inventory for a business's own purposes would be considered taxable use.

The sales tax is collected and remitted by the vendor; the use tax is self-assessed and paid by the purchaser.

Exemptions

In general, all retail sales are subject to tax unless specifically exempted by law. Exemptions generally fall into three categories:

1. Exempt Items

Exempt items include clothing, food products, prescribed drugs, nonprescribed analgesics, gasoline and diesel fuel used in cars and trucks, publications issued at intervals of three months or less, special tooling, capital equipment for production industries, and motor vehicles subject to the separate motor vehicle sales tax under Minnesota Statutes, Chapter 297B.

2. Items Used for Exempt Purposes

Certain sales are exempt when the items are used for exempt purposes. Examples include materials and fuels used or consumed in agricultural and industrial production; commercial aircraft, farm machinery; industrial accessory tools, equipment, and other items having a useful life of less than 12 months; textbooks used in a course of study, residential heating fuels, and residential water utility service.

T === $oldsymbol{\mathfrak{A}}$

3. Sales to Exempt Organizations

Tangible personal property and taxable services which are purchased, stored, or consumed by U.S. government agencies, certain units and agencies of local government (chiefly school districts, city and county hospitals and nursing homes, and public libraries), and nonprofit charitable, religious, and educational organizations are exempt. The exemption for nonprofit institutions applies only to items used in performance of the organization's charitable, religious, or educational functions. The exemption of sales to exempt organizations does not include lodging or meals but does include the purchase of utility services.

Sales and Use Tax General Rates:

<u>Period</u>	<u>Rate</u>
August 1, 1967 through October 31, 1971	3%
November 1, 1971 through June 30, 1981	4%
July 1, 1981 through December 31, 1982	5%
January 1, 1983 through June 30, 1991	6%
July 1, 1991 to the present	6.5%

Exceptions to the General Rate (as of August 2001):

a.	Liquor (beer, wine, spirits), on- and off-sale	9%
b.	Additional tax on vehicle rental	6.2%

Explanation of Data

The information in this report is based on the tax returns (form ST-1) of sales and use tax permit holders for the sales months of January through December 1998.

Each vendor is assigned an industry code according to the principal business activity reported. The industry codes are based on the 1987 revision to the U.S. Standard Industrial Classification.

Vendors doing business at more than one location have the option of filing one return for each business establishment or of filing a single consolidated return for all establishments. The consolidated return shows, for each business establishment, the sales made, tax due, and location by city and county. Data for the establishments of consolidated filers were combined with the data for single-location filers to produce the information in this report.

The following is an explanation of the column headings used in the report:

Gross Sales - Total sales for the year, including both taxable and nontaxable transactions.

Taxable Sales - The amount of sales subject to sales tax. Taxable sales exclude exempt items, items sold for resale, items sold for exempt purposes, and items sold to exempt organizations.

Sales Tax - The amount of sales tax reported on form ST-1. This column includes sales tax at the 6.5 percent general rate, the nine percent special rate on on- and off-sale liquor, and the 6.2 percent additional tax on motor vehicle rental. The column does not include the 6.5 percent motor vehicle sales tax. The 1998 total for the vehicle sales tax was approximately \$466 million.

Total Sales and Use Tax - The combined amount of both sales and use tax reported on form ST-1. As described on page one, the use tax is due on goods and taxable services sold to Minnesota customers and stored or used in Minnesota, but on which the Minnesota sales tax was not paid to the vendor. These purchases typically are shipped from a vendor in another state or country who is not required to collect Minnesota sales tax. Use tax purchases also include items the buyer acquires exempt for resale but which are put to a business or personal use. To determine use tax alone, subtract the sales tax column from this column.

Number of Records - The number of vendors who filed one or more returns during the year. For consolidated filers, each business location is reported as one record.

Worthington	320,018,680	113,296,493	6,939,618	7,081,685	494

NOTE: Business addresses are verified and standardized by computer. In some cases, because of post office requirements, the city name is changed to the post office city rather than the actual city where the business is located. While useful for trend analysis, the figures listed do not necessarily represent businesses within the exact city limits.
