	(000's)			
Individual Income Tax	(\$23,270)	(\$143,225)	(\$108,980)	(\$112,705)
Corporate Franchise Tax	(\$4,055)	(\$545)	(\$425)	(\$380)
General Fund Total	(\$27,325)	(\$143,770)	(\$109,405)	(\$113,085)

EXPLANATION OF THE BILL

The bill would update reference to the Internal Revenue Code to include provisions of the American Taxpayer Relief Act of 2012, Public Law 112-240, enacted January 2, 2013. Some provisions would be adopted retroactive to tax year 2013. Others would be effective beginning with tax year 2014. The increased income thresholds for the limitation on itemized deductions and the phaseout of personal exemptions would not be adopted.

A table is attached which lists the provisions that would be adopted and includes the effective date and revenue impact of each item.

REVENUE ANALYSIS DETAIL

- The House Income Tax Simulation Model was used for several provisions: the increased standard deduction for married filers; the changes in the dependent care credit; and, for the working family credit, the higher phaseout range for married-joint returns. The estimates are consistent with the November 2013 state revenue forecast.
- For other provisions, the estimates are based on the estimates for the federal legislation prepared by the staff of the Joint Committee on Taxation, dated January 1, 2013.
- Where applicable, the estimates were divided between the individual income tax and corporate franchise tax. The estimates for each provision were apportioned to Minnesota based on information relevant to that provision. The estimates were adjusted for the difference between federal and state tax rates and federal and state fiscal years.
- For tax year 2013 provisions, the fiscal year estimates assume enactment early in the legislative session. If enactment occurs at the end of the session, some or all of the FY 2014 impact would shift to FY 2015.
