

# **THIS OLD HOUSE**

**Assessment Year 2002**

A Report submitted to the State of Minnesota Legislature  
pursuant to  
Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42.

Minnesota Statute, Section 3.197 requires that any report to the Legislature contain, at the beginning of the report, the cost of preparing the report.

The cost of preparing this report was \$1,200.00

## **This Old House**

The 1993 Legislature passed the “This Old House” law (M.S. 273.11, subd. 16). This Minnesota property tax program has allowed homestead property owners to exclude all or a portion of the value of qualifying improvements made to older homes. The program was designed to provide owners of older homes with an incentive to renovate their property, and in turn, preserve and revitalize older neighborhoods.

### **Which properties may be eligible?**

A property is eligible for this program if the following criteria are met.

1. The property must be 45 years of age or older at the time the improvements begin.
2. The property must be the applicant's homestead in the year the improvements are made.
3. The estimated market value of the property (before improvements) must not exceed \$400,000.
4. Relocated houses, as well as original construction on the original site are eligible, if all other requirements are met.
5. Property classified as residential homestead, agricultural homestead, relative homestead or blind/disabled homestead are all eligible, if all other requirements are met. This includes duplexes, triplexes, condominiums, etc.
6. The improvements for a single project or in any one year must add at least \$5,000 to the value of the property.

Under the program, homes between 45 and 70 years old are eligible to have one-half the market value (50 percent) of qualifying improvements excluded from the market value, up to a maximum exemption of \$25,000 for all qualified improvements. Properties that are 70 years or older are eligible to exclude 100 percent of their qualifying improvements, up to a maximum exemption of \$50,000.

These eligibility requirements have changed over time. For example, for improvements made before July 1, 1999, the age of the house only had to be 35 years or older, the estimated market value of the home could exceed \$150,000 or \$300,000 only if the property’s community met certain criteria, and the minimum improvement value only had to be \$1,000.

### **Qualifying improvements**

Only improvements made to the house and garage qualify. The construction of a new garage (up to 600 square feet) also qualifies if no garage exists originally. Improvements to the land, such as landscaping, a driveway, an underground sprinkler system, a sewer system, or a swimming pool do not qualify for exemption. The exemption may be applied to multiple improvements to the house and/or garage.

The value of improvements is determined by the assessor and relates to the additional market value added to the property, not the actual cost of the improvements. The value of qualifying

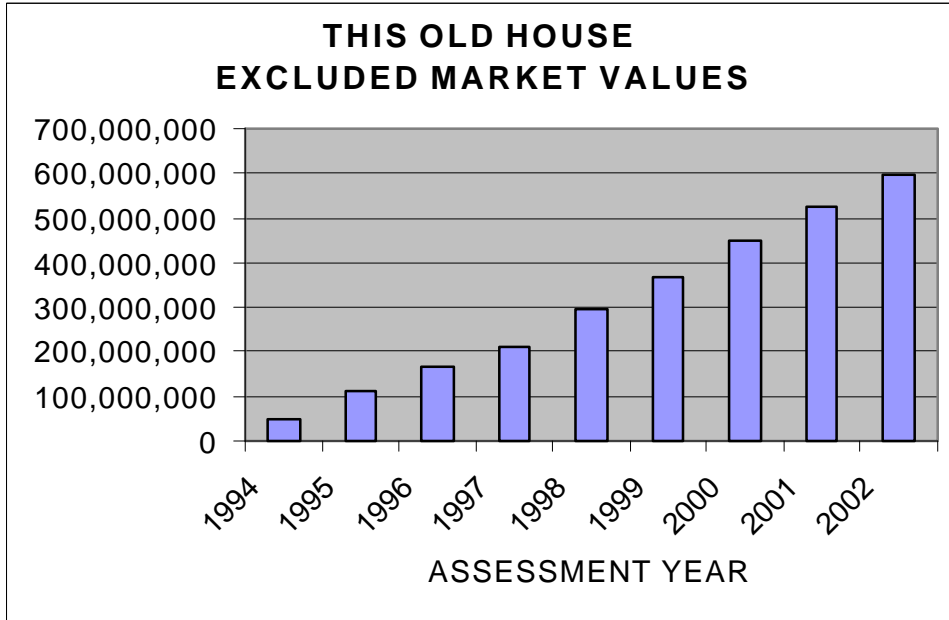

improvements will be excluded from property tax for up to a maximum of 10 years. After this time, the value of improvements will be added to the assessment as follows:

1. 50 percent in the two subsequent assessment years if the improvements that began in any one year have a total value of \$10,000 or less; or
2. 20 percent in the five subsequent assessment years if the improvements that began in any one year have a total value of more than \$10,000.

### Excluded Market Values

In 2002, 86 counties reported \$597,253,762 in excluded market value spread among 55,370 properties. This compares to 2001 where the same counties reported \$526,524,562 of excluded market value spread among 52,722 properties. Lake of the Woods County did not report any This Old House properties in either year.

Figure 1.

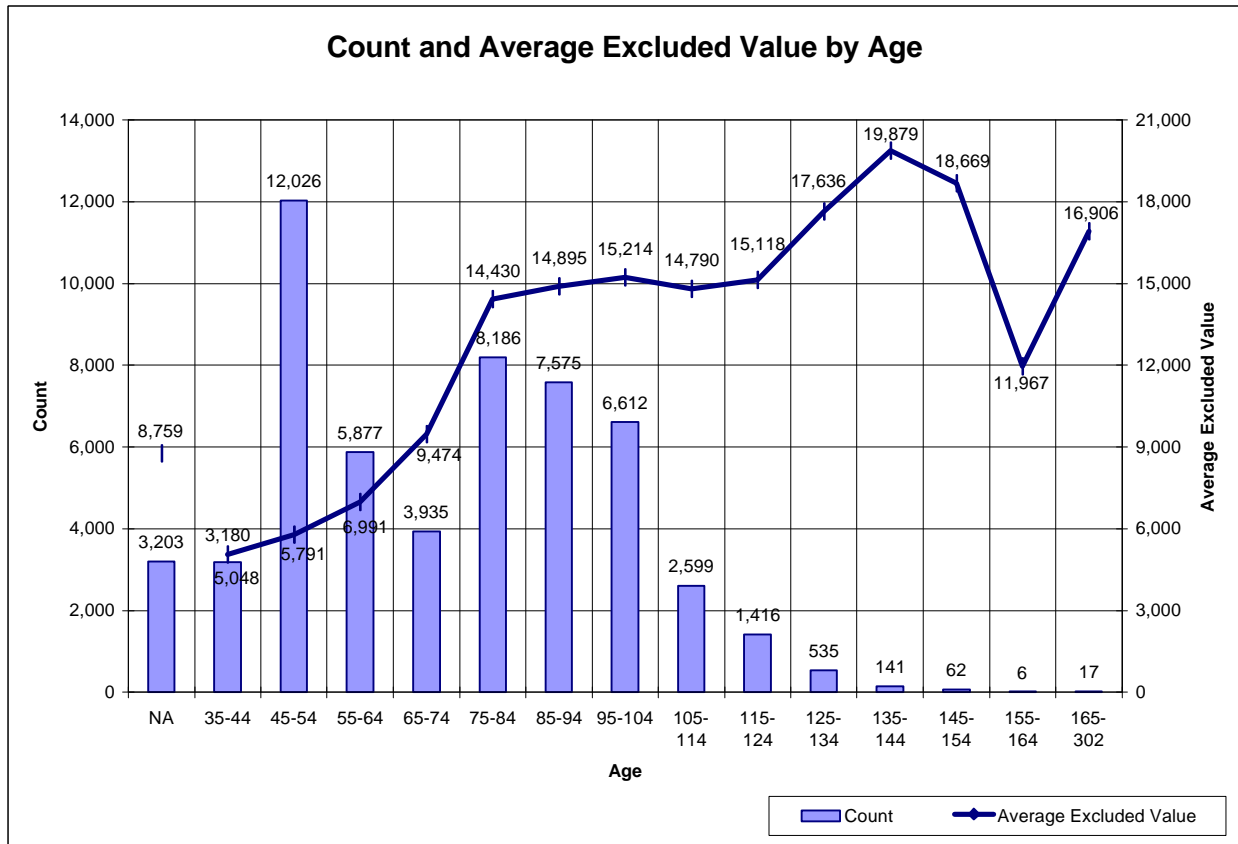

As Figure 1 shows, the reported excluded market value has grown steadily each year from \$49,073,380 in 1994, the first year these values were reported, to \$597,253,762 in 2002.

Under current law, this program has expired for new qualifiers as of January 2, 2003. For partially complete improvements, this means that only the value of improvements on January 2, 2003 will be eligible for value exclusion.

This report provides some brief examination of the market value excluded from taxation under the “This Old House” program by county, age, estimated market value, improvement value, and amount of excluded value. This report also details the total market value excluded from taxation for each city and town.

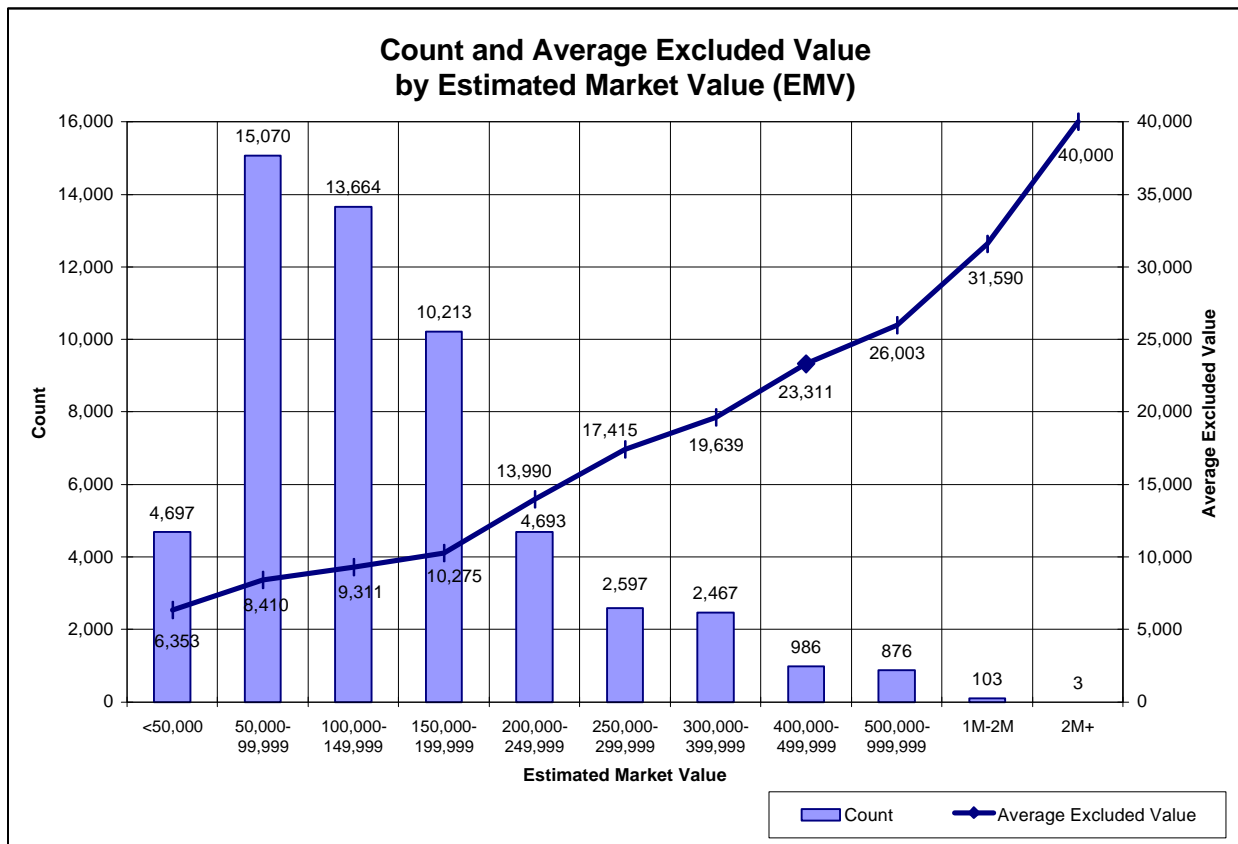

Figure 2.

Observations:

- This chart breaks the parcels in this program into age ranges, providing counts by age range and the average excluded market value for each range.
- Some counties do not report property ages, and several parcels indicated erroneous ages. These counts and the associated excluded market values appear in the NA column.
- Generally, excluded market values increase as properties get older. There is a significant jump in excluded market values for properties over 74 years old. This is due to the fact that homes over 70 years of age qualify for full exclusion of the improvement value, while homes less than 70 years of age may only exclude one-half of the improvement value. There is also a significant increase in excluded value for homes older than 125 years of age, which may suggest improvements are more extensive for significantly older homes.
- Beginning in the 2000 assessment, homes must be 45 years old at the time of the improvement to be eligible for this exclusion. The prior age requirement was 35 years old.

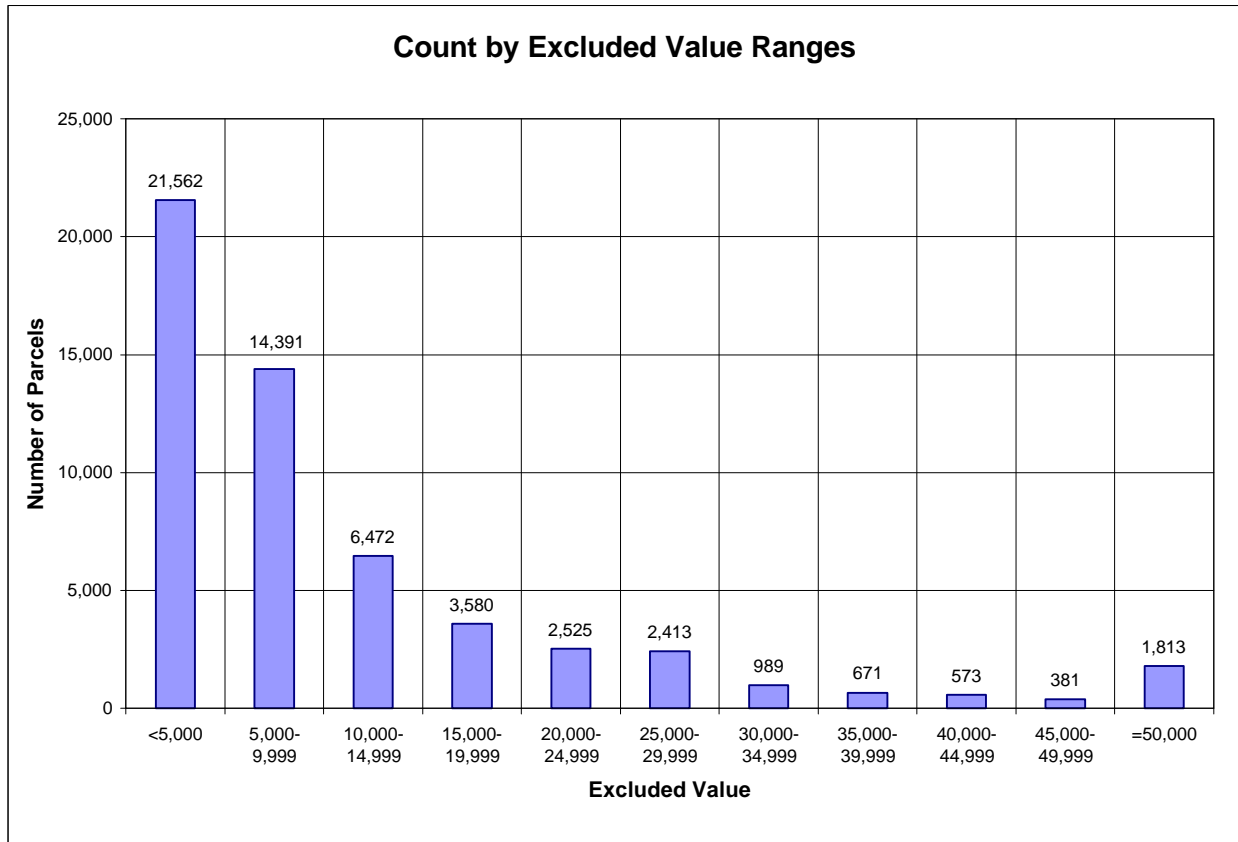

Figure 3.

Observations:

- In the first year of the program there were no EMV limits to qualify. In 1994, limits were established where EMV's of \$150,000 or less would qualify and EMV's greater than this, up to \$300,000, could qualify if the city or town met certain criteria. In 1996, these limits were changed so EMV's of greater than \$300,000 could also qualify if the city or town met other criteria. In 1999, these ranges and criteria were eliminated and the existing EMV limit of \$400,000 or less was imposed. As a result of these limits, the majority of This Old House parcels have EMV's of \$150,000 or less prior to the improvements, and 79% have current estimated market values under \$200,000.
- The average excluded value increases as EMV's increase. This excluded value particularly increases faster in ranges beyond \$200,000, suggesting that properties in cities that met the criteria for exceeding \$150,000 or \$300,000 in EMV may have generally been subject to more substantial improvements than the smaller participants.

Figure 4.

Observations:

- This chart breaks excluded market values into eleven ranges of \$5,000 increments and shows the parcel count for each range. There are 55,370 parcels in this program.
- 35,965 parcels (65% of the total) have excluded market values less than \$10,000, and the number of parcels tapers off as the ranges of excluded values increase. However, 1,813 parcels (3% of the total) have the maximum exemption of \$50,000 for homes 70 years old or older. Because homes under 70 years of age are limited to a \$25,000 maximum exclusion, the \$25,000-\$29,999 range also shows a slightly higher count than the trend would predict.
- Since the 2000 assessment, the program required a minimum qualifying improvement value of \$5,000. Prior to the 2000 assessment, the qualifying improvement value was \$1,000.
- Homes between 45 and 70 years old are eligible to have one-half the market value of qualifying improvements excluded from the market value while homes that are 70 years or older are eligible to exclude 100 percent of their qualifying improvements. The reduced exclusion and greater numbers of homes under 70 years of age contributes to the front loading of the chart.

## **This Old House by County**

The table on the following two pages summarizes This Old House participation by county. Hennepin County has by far the largest participation with 15,028 parcels, or 27% of all participants. Ramsey and St. Louis counties are next with 4,821 and 4,105 parcels, respectively. These counties contain Minnesota's three first class cities (Minneapolis, St. Paul, and Duluth), which each have a large population of older homes. The remaining 57% of This Old House participants are well scattered around the state. Some of the counties with the most participants are Dakota, Stearns, Mower, Blue Earth, and Goodhue.

## **City, Town, and Detail Data**

Following the county summary table is a list of This Old House excluded market value by city and town. The detail parcel data, including age, estimated market value, improvement market value, and the excluded market value is available by request. Please contact Dean Carter at 651-296-3001 to request this data.

**This Old House Parcel Counts, Age, Estimated Market Value, Improvement Market Value, and Excluded Market Value by County**
