Department of Revenue
 Analysis of H.F. 2424 (Davids) / S.F. 2571 (Senjem) as introduced

	Fund Impact			
	FY2020	FY2021	FY2022	FY2023
	(000's)			
Property Tax Refund Interaction	\$0	(\$1,880)	(\$1,880)	(\$1,880)

Effective beginning with taxes payable in 2020.

EXPLANATION OF THE BILL

Under current law, each unit of class 4d qualifying low-income rental housing has a classification rate of 0.75% for the first tier of market value and 0.25% for the remaining market value. The first tier market value limit is adjusted annually by the average statewide change in estimated market value of property classified as 4a apartments and 4d low-income rental housing properties, excluding new construction. The first tier market value limit per unit is \$150,000 for assessment year 2019.

The proposal would remove the tiered classification rates and set the classification rate at 0.25% for all class 4d property.

REVENUE ANALYSIS DETAIL

- In assessment year 2018, there were approximately 2,700 parcels statewide containing class 4d low-income rental housing. The market value for class 4d property in the same year was approximately \$5.1 billion statewide.
- The proposal would shift property taxes away from class 4d properties and onto all other properties, including homesteads.
- As a result of property taxes shifting onto homesteads, property tax refunds paid by the state would increase by \$1.88 million beginning in fiscal year 2021.
