EXPLANATION OF THE BILL

Under current law, the purchase price of tax-forfeited property must be paid in full before the state will issue a deed for the property.

Under the proposal, a deed would also be issued to the county auditor for mortgage-financed sales of tax-forfeited property before closing of the sale has occurred:

- For a deed to be issued under these circumstances, the county auditor would approve the sale based upon a written commitment from a licensed closing agent, title insurer, or title insurance agent that the funding of the purchase is held in an escrow account and available for disbursement upon receipt of the deed.
- The county auditor would hold the deed until it is requested by a licensed closing agent, title insurer, or title insurance agent to settle and close on the purchase of the property. If not requested within 30 days, the county auditor would return the deed to the state for cancellation.
- If the deed is delivered to a licensed closing agent, title insurer, or title insurance agent, but the closing does not occur within 10 days, the deed would be returned to the county auditor, who, upon receipt, would return the deed to the state for cancellation.

REVENUE ANALYSIS DETAIL

- The proposal may have an impact on the sales of tax-forfeited property.
- It is assumed that there would be no impact on the state general fund.
