To avoid disclosure for individual businesses, data is not reported (i.e., is masked) for any industry classification with less than four establishments. When this occurs for industries 711, 712, 713, 721 or 722, the masked data is first assigned to industries 710 or 720 in attempts to reach the reporting threshold of at least four establishments, then to industry 700. When no aggregation of masked data results in four or more establishments, data is assigned to "All Other Industries."

Sales Tax Statistics data are based on the year the sales took place.

The difference between Total Tax and Sales Tax is Use Tax (not shown here).

Wherever possible, data included here is consistent with other Minnesota sales tax statistics available online at http://www.revenue.state.mn.us/research_stats/Pages/Annual-Statistics.aspx

To avoid disclosure for individual businesses, data is not reported (i.e., is masked) for any industry classification with less than four establishments. When this occurs for industries 711, 712, 713, 721 or 722, the masked data is first assigned to industries 710 or 720 in attempts to reach the reporting threshold of at least four establishments, then to industry 700. When no aggregation of masked data results in four or more establishments, data is assigned to "All Other Industries."

Sales Tax Statistics data are based on the year the sales took place.

The difference between Total Tax and Sales Tax is Use Tax (not shown here).

To avoid disclosure for individual businesses, data is not reported (i.e., is masked) for any industry classification with less than four establishments. When this occurs for industries 711, 712, 713, 721 or 722, the masked data is first assigned to industries 710 or 720 in attempts to reach the reporting threshold of at least four establishments, then to industry 700. When no aggregation of masked data results in four or more establishments, data is assigned to "All Other Industries."

Sales Tax Statistics data are based on the year the sales took place.

The difference between Total Tax and Sales Tax is Use Tax (not shown here).

Report prepared for Explore Minnesota Tourism by the Tax Research Division of the Minnesota Department of Revenue.

To avoid disclosure for individual businesses, data is not reported (i.e., is masked) for any industry classification with less than four establishments. When this occurs for industries 711, 712, 713, 721 or 722, the masked data is first assigned to industries 710 or 720 in attempts to reach the reporting threshold of at least four establishments, then to industry 700. When no aggregation of masked data results in four or more establishments, data is assigned to "All Other Industries."

Sales Tax Statistics data are based on the year the sales took place.

The difference between Total Tax and Sales Tax is Use Tax (not shown here).

Wherever possible, data included here is consistent with other Minnesota sales tax statistics available online at http://www.revenue.state.mn.us/research_stats/Pages/Annual-Statistics.aspx
