### Am I eligible?

To qualify for this subtraction, you (or your spouse if filing a joint return) must either be aged 65 or older (born before January 2, 1958) or meet the disability requirements below. Also, you must meet the income limitations below.

If you are married and filing separate federal income tax returns, you are not eligible unless you and your spouse lived apart for all of 2022.

## What are the disability requirements?

To meet the disability requirements, both of these must be true:

- You (or your spouse if filing a joint return) had a permanent and total disability by the end of 2022
- You (or your spouse if filing a joint return) received federally taxable disability income in 2022

You may be eligible if at any time a physician signed the statement in the instructions for federal Schedule R certifying that you have a permanent and total disability.

If you are a veteran, you may qualify if you received a signed certification from the Department of Veterans Affairs stating you have a permanent and total disability.

If you have never filed Schedule R but believe you have a permanent and total disability, ask your physician to determine if you meet the disability requirements. If you do, have your physician sign the statement in the Schedule R instructions and keep it with your tax records.

Note: You do not need to file Schedule R with your federal income tax return to be eligible for the Minnesota subtraction.
