2022 Schedule M1SLC Instructions

Am I eligible?

You may be eligible for the Student Loan Credit if both of these are true:

- · You have taxable earned income
- · You made payments toward your own qualified education loans during the year

What is a qualified education loan?

Qualified education loans include loans used for the cost of attendance at an eligible postsecondary college or university. This does not include loans from a relative or a qualified employer plan.

Can I claim payments I made toward someone else's loans?

No. You may only qualify for the credit based on your own eligible payments toward your own qualified education loans.

Do I need proof?

Yes. Save canceled checks and keep a detailed record from the institution you make payments to for your qualified loans. We may ask you to show these records if we have questions.

Line Instructions

Round amounts to the nearest whole dollar.

Line 1

If you are married, filing a joint return, and made payments toward loans taken out to pay for each spouse's postsecondary education, enter the amount you paid toward each spouse's loans in the appropriate column.

Example for married couples filing a joint return: You paid \$3,000 toward loans taken out to pay for your postsecondary education and \$2,500 toward your spouse's loans. You will enter \$3,000 in column A, and \$2,500 in column B.
