

Candy

102B

Sales Tax Fact Sheet 102B

Fact Sheet

What's New

Starting July 1, 2023, edible cannabinoid products are subject to the Cannabis Tax. See Cannabinoid Products.

Candy is taxable. Candy is the preparation of sweeteners in combination with chocolate, fruits, nuts, or other ingredients or flavorings in the form of bars, drops, or pieces regardless of size.

Candy does not include any preparation containing flour and must require no refrigeration.

Vending Machine Sales

The only taxable food sold through vending machines is prepared food, soft drinks, candy, and dietary supplements. For more information, see the Vending Machines and Other Coin-Operated Devices Guide.

Flour

Items that contain the word “flour,” such as white, whole wheat, rice, corn, or brown flour, on the ingredient label are not taxable. Ingredients such as soy or whey used in place of flour, are not flour.

Refrigeration

If an item requires refrigeration, it is not candy. For example, ice cream bars require refrigeration so they are not taxable. These items are taxable if they are prepared food. For more information, see the Prepared Food Fact Sheet.

Candy that does not require refrigeration is taxable even if it is sold frozen.

Cannabinoid Products

Currently, edible cannabinoid products and nonintoxicating topical products are legal to sell in Minnesota.

Starting July 1, 2023, edible cannabinoid products are subject to the 10% Cannabis Tax. In addition to the Cannabis Tax, taxable products are subject to both:

- 6.875% state general rate sales tax
- Any applicable local sales taxes based on where the transaction takes place

Nonintoxicating topical products are not subject to the 10% Cannabis Tax, but are subject to both:

- 6.875% state general rate sales tax
- Any applicable local sales taxes based on where the transaction takes place

For more information, go to our website www.revenue.state.mn.us and type **Cannabis Tax** into the Search box.

Sweeteners

Examples of sweeteners include:

- artificial sweeteners
- aspartame
- barley malt
- corn syrup
- dextrose
- evaporated cane juice
- fructose
- fruit juice concentrates
- honey
- invert sugar
- molasses
- rice syrup
- saccharin
- stevia
- sucralose
- sucrose

Taxable Candy

Examples of taxable candy include:

- almond bark
- breath mints
- breakfast and nutrition bars without flour
- candy bars
- chocolate chips
- chocolate-coated potato chips
- fruit roll-ups
- marshmallows
- caramel corn
- caramel apples
- chocolate or carob covered raisins, nuts, etc.
- sweet or semi-sweet cooking bars or chips
- gum
- honey roasted and honey coated nuts, beer nuts
- peanut brittle
- sugarless candy
- yogurt covered raisins, nuts, etc.

Note: Cotton candy is commonly thought of as candy, but it is not candy because it is not sold in the form of bars, drops, or pieces. Cotton candy is taxable when prepared by the seller.
