The following item numbers from the Mini Abstract are calculated using EMVs from the Equalization table: 55-73, 95-105

Personal property, manufactured homes not qualifying as real estate, minerals, railroad operating property, attached machinery and other personal property which is part of an electric generating machine that exceeds 5 megawatts and meets other requirements of M.S. 272.02, subd. 99, and public utility values, whether state or locally assessed, are NOT reported on the mini summary.

JOBZ was fully sunsetted in AY2020/PY2021 so all related Item Numbers were removed from the summaries.

The D00, D01, D02, D03 and D04 property subtypes were added in AY2021/PY2022 for property assessed by the State Assessed Property Unit . Please refer to the instructions in the property subtypes section for further details.

For reporting purposes, the K10: 3a Utility/Pipeline Land and Buildings; K20: Electric Generating Machinery; K30: Other Machinery, Implements and Tools; and L00: Railroad property types that have a State Assessed Property Subtype are grouped together with real property, while the remaining State Assessed Property Subtypes are grouped under Personal Property.

Agricultural/Rural Property is comprised of A11, A12, A21, A22, A30, A42, A43, B10, B20, B30, B40, B50, C00 and M10 property types.

County Taxed power lines are currently reported only on the Tax Lists Summary and are grouped as follows: Distribution Lines = K50, Transmission Lines = K41, K42, K43, K44. They may be reported on the Field Breakdown Summary in the future.
