

# What is third-party access in e-Services?

Third-party access allows your customers to give you secure, online access to their tax accounts. They can choose what access you have and what accounts you can see.

## Why should I use it?

### Keep it simple.

Manage all accounts using one username and password.

### Protect Yourself.

You are only accountable for the actions you take.

### Reduce Storage.

Reduce your amount of stored client data.

## How do I get started?

Go to [www.revenue.state.mn.us](http://www.revenue.state.mn.us) and type **third-party access** in the Search box. You will need your customer's Tax ID Number, Tax Account Type, and Account ID Number (Minnesota Tax ID Number).
