EXPLANATION OF THE BILL

Under current law, when property that is exempt from property taxes is leased, loaned, or otherwise made available and used by a private individual, association, or corporation in connection with a business conducted for profit, then property taxes are imposed to the same extent as though the lessee or user was the owner of the property, with some exceptions.

Under the proposal, exempt property that is leased, loaned, or otherwise made available to a private individual, corporation, or association would remain exempt from property taxes if:

- 1) the property is owned by a nonprofit conservation organization; and
- 2) the private individual, corporation, or association is using the property for grazing activities that further the nonprofit conservation organization's conservation objectives.

REVENUE ANALYSIS DETAIL

- Property owned by The Nature Conservancy would be eligible for the proposed exemption.
- Beginning with taxes payable in 2025, the exemption would shift property taxes away from the exempted conservation land and onto all other properties, including homesteads, increasing homeowner property tax refunds by less than \$5,000 in FY 2026.
- Tax year impact is allocated to the following fiscal year.
