Effective following local approval.

EXPLANATION OF THE BILL

Under current law, the city of Maple Grove was allowed to establish tax increment financing (TIF) districts within a defined project area that were subject to special rules as established by the legislature in 2014 and revised in 2017. The project area includes rights-of-way for all present and future highway interchanges abutting the project area.

The proposal would modify some of the special rules that apply to these districts: The five-year rule for development activity to commence is extended from eight years to 13 years and the number of years increments from a soil deficiency district may be collected is extended from 20 years to 25 years.

REVENUE ANALYSIS DETAIL

- The proposed changes to this special TIF provision may have an impact on the local tax base and tax rate in the future and may result in a small change in property tax refunds paid by the state.
