Worksheet Instructions

Step 1
Calculate your total income for each period (column). Calculate your total income minus your adjustments to income.

Step 2
Trusts do not use the amounts shown in columns (a) – (d). Use the following amounts instead: 6, 3, 1.71429, and 1.09091, respectively as the annualization amounts.

Step 4
Determine your Minnesota Additions for each quarter. Enter the amounts in step 4.

Step 6
Determine your Minnesota Subtractions for each quarter. Enter the amounts in step 6.

Step 8
Minnesota tax rate for composite tax and nonresident withholding tax is 9.85%. Take the amount from step 7 and multiply it by 9.85%. Add any minimum fee amount and/or any other S corporation taxes and enter the result in the line for step 8.

2020 Schedule EST Instructions

Additional Charge for Underpayment of Estimated Tax for Trusts (Form M2), Partnerships (Form M3) and S Corporations (Form M8)

This schedule is not required if you are filing your first Minnesota tax return.

Who Must File

If you are a trust, partnership or S corporation, use this schedule to determine if you owe an additional charge for underpaying estimated tax. (Decedent estates are not subject to the additional charge.)

You may owe an additional charge if one of the following is true:

- you did not pay the correct amount of estimated tax by the due dates, even if you expect to receive a refund
- your Minnesota tax liability for the current year, less any credits, is \$500 or more

Exception. You are not subject to an additional charge for underpayment of estimated tax if this is the first year you are filing a Minnesota tax return.

Avoiding the Additional Charge

To avoid an additional charge for underpayment of estimated tax, you must make the required estimated tax payments on time and pay the lesser of:

- 90% of your current year's original tax liability, less any credits
- 100% of your prior year's total tax liability, less any credit. However, if your Minnesota assignable gross income on your 2019 Form M2 is more than \$150,000, you must use 110% of your previous year's tax liability instead of 100%
- 75% of your actual liability for tax year 2018 (This option applies for tax year 2020 only.)

Fiscal Year Taxpayers

If you file your Minnesota return on a fiscal year basis, change the payment due dates to the 15th day of the fourth, sixth and ninth months of your fiscal year, and the first month of your next fiscal year.

Short Taxable Year

If you have a short taxable year, the installments are due on the 15th day of the third, sixth, ninth and final months. No installment is required for a short taxable year of fewer than four months.

Line Instructions

These instructions refer to your original return. However, an amended return is considered the original return if it is filed by the regular due date of the original return.

Line 2 — 2020 Withholding and Credits

Trusts: Add lines 21, 23, and 24 of your 2020 Form M2.

Partnerships: Add lines 5, 6, and 9 of your 2020 Form M3.

S corporations: Add lines 6, 7, and 12 of your 2020 Form M8.

Line 5 - Required Payment Based on 2018 or 2019 Tax Amounts

Your required payment based on 2018 or 2019 tax amounts is the lesser of your income tax amount for tax year 2019 or 75% of your income tax amount for tax year 2018. The 75% option applies to tax year 2020 only. Use the steps below to determine the amount to enter on line 5.

If you did not file a return for the tax year identified in the steps below, or that year was less than a full 12-month period, skip that step.

1. From your 2019 return, enter the amount from line 14 of Form M2, line 4 of Form M3, or line 5 of Form M8. _____
2. From your 2018 return, enter the amount from line 14 of Form M2, line 4 of Form M3, or line 5 of Form M8. _____
3. Multiply step 2 by 75% (.75). _____
4. Enter the smaller of step 1 or step 3 here and on line 5. _____

Optional Short Method or Regular Method

You may use the optional short method *only* if one of the following is true:

- you did not make any estimated tax payments
- you paid your 2020 estimated tax in four equal amounts on or before the due date of each installment

Note: If any payment was made *before* the installment due date, it is best to use the regular method. Using the short method will cause you to pay a larger additional charge than the regular method. If the payment was only a few days early, the difference is likely to be small.

Continue with line 7 to use the optional short method, and skip lines 13-22.

If you are not eligible or you choose not to use the optional short method, use the regular method to determine your additional charge. Skip lines 7-12 and continue with line 13.

2020 Schedule EST Instructions (Continued)

Optional Short Method

Line 7

Enter the total amount of 2020 estimated tax payments you made in 2020 and 2021. Do not include any other amounts on line 7.

Regular Method

Complete column A, lines 13–16. Then, depending on whether you have an underpayment or an overpayment, either continue with line 17 of column A (underpayment) or line 13 of column B (overpayment).

Line 13

Enter 25% (0.25) of line 6 in each of the four columns on line 13.

You may benefit from using the annualized income installment method if your income varied throughout the year or if you had a late capital gain or higher 4th quarter income. If you use this method for one payment due date, you must use it for all. Complete the worksheet on form ESTa.”

Line 14

For each payment period, enter the total amount of:

- estimated payments you paid for each payment period
- Minnesota income tax withheld in 2020
- your 2019 income tax refund, if you elected on your 2019 Minnesota return to apply all or a portion of your refund to your 2020 estimated tax
- any refundable credits you claim for 2020

You are considered to have received any refundable credits evenly during the year unless you show otherwise. Your 2019 refund, if any, is considered a credit to your first payment period.

Lines 15 and 16

Compare line 13 of each column to line 14 of the same column.

If line 14 is more than line 13, you have an overpayment for the payment period. Subtract line 13 from line 14 and enter the result on line 15.

Add line 15 to the credit on line 14 of the next column. Overpayments in any quarter following an underpayment must first be applied to making up previous underpayments.

If line 14 is less than line 13, you have an underpayment for that payment period. Subtract line 14 from line 13 and enter the result on line 16. Continue with line 17.

Line 17

If you have an underpayment in all four quarters, in each column enter the date you filed your return or the regular due date for filing your return, whichever is earlier.

Otherwise, enter the date when the underpayment on line 16 was paid in full.

Example: You made your first quarter estimated tax payment on April 20, but you show an underpayment on line 16. On June 14, you paid your second quarter payment in full and included the underpayment from the first quarter. On line 17, you would enter June 14 in the first and second quarter columns.
