# Schedule M4NC Instructions

---

## Purpose of This Schedule

Under current law, definitions used in determining Minnesota taxable income are based on the Internal Revenue Code, as amended through May 1, 2023. Since that date, Congress has enacted the 2025 Federal Tax Budget and Reconciliation Bill (H.R. 1). Adjustments must be made to correctly determine your Minnesota taxable income because Minnesota has not adopted these federal changes. Use the following instructions to calculate nonconformity adjustments relating to this Act.

## Who Must File Schedule M4NC?

If any of the federal provisions that are included in H.R. 1 affect the amount of taxable income reported on your 2024 federal Form 1120, you must make an adjustment to income on your 2024 Minnesota return. To determine the adjustment amount, compute your federal taxable income (FTI) based on IRC, as amended through May 1, 2023 (2023 IRC), and report the difference between this amount and the amount allowed under current federal law as an adjustment to income.

Use the Schedule M4NC and these instructions to complete your Minnesota return. The adjustment for each line should reflect the change to FTI due to the difference between the item calculated on your 2024 federal return and the item calculated under 2023 IRC. Each line will also include the net adjustments received from Schedule(s) KPCNC for your pro rata share in a unitary partnership.

If the change results in a reduction of your FTI, enter the adjustment as a negative number. If the change results in an increase of your FTI, enter the adjustment as a positive number. For purposes of calculating the adjustment, any federal regulations or rulings applicable to 2023 IRC apply.

Save your entire 2024 Minnesota Form M4, Schedule M4NC, and all worksheets you use in determining the adjustments.
