2026 Schedule DIV Instructions

Complete Schedule DIV to determine your deduction for dividends received.

Purpose of Schedule DIV

Use Schedule DIV, *Deduction for Dividends Received*, to calculate your deduction for dividends received by a member of your combined group. The dividend must be paid by a corporation outside the combined group.

The dividends received deduction is allowed for dividends that are included in the corporation's Minnesota taxable net income for the taxable year. Subpart F income is included in the calculation of Minnesota dividends for the Dividends Received Deduction. For tax years beginning after December 31, 2025, net controlled foreign corporation tested income (NCTI) is included in the calculation of Minnesota dividends for the Dividends Received Deduction.

The dividends received deduction is not allowed if the corporation does one of the following:

- Includes the stock in its inventory
- Holds the stock primarily for sale to customers in the ordinary course of business
- Conducts business that consists mainly of holding the stocks and collecting income and gains from them

Line Instructions

Line 1

Enter your dividends and inclusions received from federal Form 1120, line 4 reduced by adjustments calculating subpart F and NCTI for the federal look-through rule and the Qualified Business Asset Investment (QBAI) deduction against Minnesota NCTI.

Unitary businesses: Enter the sum of the dividends received by each corporation included on your combined return.

Line 7

Enter any dividends from line 1 that are received by a corporation included on your combined return from a corporation included on your combined return.

Line 10

Enter any dividends included on line 1 that are received on debt-financed stock under IRC section 246A and not allowed a federal dividends received deduction.

Line 11

Enter any dividends included on line 1 from federal Form 1120, Schedule C:

- Amount of Section 965(a) inclusion
- Line 20 - Other dividends
